16B. UNITED STATES OF AMERICA BY _____ (Signature of Contracting Officer)	16C. DATE SIGNED

1. SCOPE

Design and construct the Global Hawk Dormitory at Beale Air Force Base, California in accordance with the criteria contained herein and using industry standard materials and efficient practices. The objective of this contract is to design and construct the required facility as described in this document and Section 01011, Functional Criteria, and to meet the operational requirements of the Air Force. The Contractor shall provide all labor, equipment and material to perform the design and construct the complete, operational facility. The Contractor is responsible for visiting the site during a prescheduled site visit of all bidders prior to submitting his proposal.

The Contractor shall be responsible for the professional quality, technical accuracy and coordination of all designs, drawings, specifications and other documents or publications upon which construction is based. The design of architectural, interior design, structural, mechanical, electrical, civil, landscape and other engineering features of the work shall be accomplished, reviewed and approved by engineers, architects and interior designers who are licensed professionals with a minimum of six years experience to practice in their respective professional field in a state or possession of the United States, ***except that the Interior Designer shall have a minimum of six years interior design experience with current certification as an Interior Designer.***

The design and construction of this facility shall conform to the Beale Air Force Base Facilities Design Standards and the requirements issued in this solicitation. The Contractor is responsible and liable for the complete design and shall not assume that the provided design criteria and drawings in this solicitation will alleviate him from performing any additional design as required to produce a complete set of construction documents.

The attached drawings indicate the required floor plan, exterior elevations, preliminary building sections, siting location and other system parameters that have been developed to date and approved by the Using Agency and Base. These shall be used to develop a full set of construction documents with only minor modifications allowed and only if approved by the Contracting Officer.
