construction drawings for a detail of the toe trench, the geotextile lining and a profile of the new drainage trench.

1.3 PAYMENT

Geotextile ~~and geocomposite drain system~~ will be paid for at the contract unit price for Bid Items, "GEOTEXTILE" and "~~GEOCOMPOSITE DRAIN SYSTEM - PUMP STATION~~". The unit price shall include the cost of materials, equipment used to place, installation and all other costs associated with placement of the geotextile ~~and geocomposite drain system~~. The unit price shall also include any trench stabilization required for geotextile.

1.4 SUBMITTALS

Government approval is required for submittals with a "G" designation; submittals not having a "G" designation are for information only. When used, a designation following the "G" designation identifies the office that will review the submittal for the Government: "RE" for Resident Engineer approval, "ED" for Engineering approval, and "AE" for Architect-Engineer approval. The following shall be submitted in accordance with Section 01330 SUBMITTAL PROCEDURES:

SD-13 Certificates

Geotextile;

A minimum of 35 days prior to scheduled use, Manufacturer's certificate of compliance stating that the geotextile meets the requirements of this section. This submittal shall include copies of manufacturer's quality control test results. For needle punched geotextiles, the manufacturer shall also certify that the geotextile has been continuously inspected using permanent on-line full-width metal detectors and does not contain any needles which could damage other geosynthetic layers. The certificate of compliance shall be attested to by a person having legal authority to bind the geotextile manufacturing company.

SD-14 Samples

Geotextile;

A minimum of 35 days prior to scheduled use, the Contractor shall provide to the Government geotextile samples for testing to determine compliance with any or all of the requirements in this specification. When samples are to be provided, they shall be submitted prior to the beginning of installation of the same textile. Also, during placement a sample shall be provided to the Contracting Officer. Upon request, the contractor shall supply quality control and quality assurance tests for the geotextile. All samples provided shall be from the same production lot as will be supplied for the contract, and shall be the full manufactured width of the geotextile by at least 10 feet long, except that samples for seam strength may be a full width sample folded over and the edges stitched for a length of at least 5 feet. Samples submitted for testing shall be identified by manufacturers lot designation.
