**TAB 1: REFERENCE PROJECTS**  
**DEMONSTRATING TEAM CAPABILITY**  
**(EXPERIENCE AND PAST PERFORMANCE)**

a. For the purpose of the submission requirement for reference projects under this tab, the terms “team” or “team member” refers to either the Offeror/prospective prime contractor and/or to a proposed key subcontractor, NOT TO AN INDIVIDUAL. *The offeror is required to propose a specific project team, including key subcontractors, if any, for evaluation in response to this Request for Proposals. (Any subcontractor who will be performing the soil nail wall, sculpted facing finish wall work, river diversion, or dewatering work under the prospective contract is considered a key subcontractor for the purposes of this submission.)*

b. Provide information and references on no more than five six projects total which best demonstrate the capability of the Offeror’s proposed project team to successfully complete the current acquisition. At least one of the projects must demonstrate the experience of the prime contractor. If you propose to subcontract the soil nail wall, sculpted facing finish wall work, river diversion, or dewatering work, submit at least one reference project for each subcontractor that will be performing this work.

c. Use the standardized format for submitting reference projects that follows these instructions. The format may be tailored as necessary to accommodate the experience of the key subcontractors. You are limited to five 8 ½” x 11” pages total for each project, including any optional graphic/visual representation(s) of the referenced project. Begin each referenced project on a new page.

d. The following instructions are provided in order to assist you in determining which projects to use as references.

--Only submit **recent** projects that were physically completed or accepted by the customer within five years of the issue date of this solicitation, or which are nearing completion (e.g., which are substantially complete).

--Only submit **relevant** projects (i.e., projects similar in type, scope, size, dollar value, and/or complexity to this procurement).

*Note: Reference projects that are not determined by the Government to be both recent and relevant will not be evaluated.*

--The Government is specifically interested in projects which demonstrate experience with Soil Nail Wall Construction, Sculpted Facing Finishes, River Diversion Work and Dewatering Experience.

e. In your discussion of the relevance of the referenced project to the current acquisition, provide detailed, specific information. Include any information necessary for the Government to determine the relevance of the referenced project to the current acquisition.

***f. Letters of Commitment from Key Subcontractors: The offeror is to provide a letter of commitment and authorization from each proposed key subcontractor , as defined above. The letter is to be on the subcontractor's letterhead and is to be signed by a principal of the business concern. The letter is to: (a) State the business concern's intent to work on this project in the specified capacity if the Offeror is awarded the contract; and (b) Provide authorization for the Government to discuss the key subcontractor's past performance record with the Offeror in conjunction with the Government's evaluation of the Offeror's proposal.***

14. Traffic Rerouting and Control: Provide traffic rerouting facilities and signage as shown on the Drawings.

Optional Work shall be as specified and as shown on the Drawings and includes ~~but is not limited to~~, the following:

1. Roads: Demolish and repave southern side of Third Street; overlay pavement on intersection of Laurel Street Extension and Third Street; and install sidewalk ramp and gutter on the south side of Third Street.

No work shall begin on any Optional Item without written notification by the Contracting Officer to start work on the Optional Item.

## **1.2 PAYMENT**

Other than the Optional work described in the following paragraph, no separate payment will be made for work covered under this section; all costs associated with this section shall be included in the contract unit and/or lump sum prices in the Bidding Schedule.

### **1.2.1 Optional work**

The replacement of the pavement and installation of the sidewalk ramp and gutter on the south side of Third Street and overlaying of pavement in the intersection of Laurel Street Extension and Third Street are optional bid items that will only be done if authorized in writing by the Contracting Officer. The work will be performed using the same materials and procedures as the corresponding non-optional work. The optional work may require an additional or revised encroachment permit from the City of Santa Cruz. The optional work shall be paid at the unit prices for Bid Items "Pavement, Sidewalk, and Gutter Removal", "Roadway Preparation - Subgrade", "Aggregate Base Course", and "Asphalt Concrete Pavement", which are included in the bid schedule under the "OPTIONAL WORK" heading. The cost for installation of the sidewalk ramp and gutter shall be included as an ancillary cost in the optional Bid Item "Asphalt Concrete Pavement".

d. Upon acknowledgment of the Notice to Proceed (NTP) and continuing throughout the contract, the Contractor will record on the daily CQC report, the occurrence of adverse weather and resultant impact to normally scheduled work. Actual adverse weather delay days must prevent work on critical activities for 50 percent or more of the Contractor's scheduled workday. (ER 415-1-15, 31 OCT 89).

## 1.16 CONTRACTOR'S TEMPORARY FACILITIES

### 1.16.1 Administrative Field Offices

The Contractor shall provide and maintain administrative field office facilities within the construction area or designated staging areas. Government office and warehouse facilities will not be available to the Contractor's personnel.

### 1.16.2 Staging Area

The Contractor shall videotape the staging areas prior to using them to document their condition. Two copies of the videotape shall be provided to the Contracting Officer, one for the Government and one for the City of Santa Cruz.

The Contractor shall construct a temporary 6-foot high chain link fence around trailers and materials. The fence shall include plastic strip inserts, colored green, so that visibility through the fence is obstructed. Fence posts may be driven, in lieu of concrete bases, where soil conditions permit. Trailers, materials, or equipment shall not be placed or stored outside the fenced area unless such trailers, materials, or equipment are assigned a separate and distinct storage area by the Contracting Officer away from the vicinity of the construction site. Trailers, equipment, or materials shall not be open to public view with the exception of those items that are in support of ongoing work on any given day. Materials shall not be stockpiled outside the fence in preparation for the next day's work. At the end of each workday, mobile equipment shall be parked within the fenced area.

***The staging area located in the parking lot behind the Tire World Store, as shown on the plans, shall be laid out in such a way to maintain access for trucks delivering supplies to the store.***

### 1.16.3 Appearance of Trailers

Trailers utilized by the Contractor for administrative or material storage purposes shall present a clean and neat exterior appearance and shall be in a state of good repair. Trailers which, in the opinion of the Contracting Officer, require exterior painting or maintenance will not be allowed.

#### WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests

for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Wage and Hour Division  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
